Workshop on Generalizations of Symmetric Spaces

17th-24th June, 2015

The following mini-courses will be given:

Michel Brion (Institute Fourier)
"Spherical Varieties"

Kai-Uwe Bux (Universität Bielefeld)
"Finiteness Properties of Arithmetic Groups"

Dima Gourevitch (Weizmann Institute)
"Multiplicity One Spaces"

Bertrand Rémy (École Polytechnique)
"Compactifications of Buildings"

Additional research talks will be given by the participants.

Organizers:
Tobias Hartnick (Technion), Aloysius Helminck (NC State University)
Ralf Köhl (JLU Gießen), Amos Nevo (Technion)
